Skills

Network and telecommunication

SDN(Software-defined networking)

Linux environment

**Network services (dns,voip,
Monitoring,mail,web...)**

Cisco (Routing protocols
(Rip,Ospf,Eigrp), MPLS,IPv6,security.....)
(Cisco certificate)

Huawei

Cellular network

signal transmission techniques

tools:

GNS3,vmware,simulateur ns3

Software development:

JAVA, C#, C++, python

JavaEE,html,css,js

Web Services: Rest

database:

SQL, PL/SQL.

Languages:

French :Advanced level

(voltaire certificate)

English:Advanced level

**Engineer student in telecommunications field ,IRT option
looking for PFE internship**

Profile

Born January 1995, interested in the field of telecommunications . Able to handle different tasks either within a team or individually and able to be quickly adapted to different environment.

Education

2016-2018: ESPRIT : Ecole Sup Privée d'Ingénierie et de Technologies

Telecommunication engineer cycle,option IRT(integration network telecom)

2014- 2016 : preparatory cycle in Mathematics & Physics | IPEIEM

Admitted to national exam for engineering school

2013- 2014 : Bachelor : high school menzah 8

Bachelor's degree in Mathematics

Internship & training

July 2018-August 2018 : centre national d'informatique

Set an open source monitoring solution

web training (duration :36 hours during july month 2018) : cifop

Html,Css,Javascript,PHP

Huawei training

Academic projects

January 2018- May 2018: Esprit

Development of SafeCity platform (implement architecture in GNS3,network routing ,network services (web,mail,dns ,voip, monitoring...),set an opndalight controller and open flow switches ,stimulate sensors through a JEE application)
